CAREER OBJECTIVE

Motivated Enthusiastic and dedicated Computer Science Engineering graduate with a strong foundation in Python, SQL, Generative AI, and Data Analytics. Seeking an entry-level opportunity in software development, data analytics, or artificial intelligence where I can apply my technical knowledge, programming skills, and problem-solving abilities to real-world challenges. I am eager to learn new technologies, work collaboratively with teams, develop efficient and innovative solutions, and contribute to the growth and success of the organization while continuously improving my technical and professional skills.

EDUCATION

R.V.S. COLLEGE OF ENGINEERING	2022-2026
Bachelor of Engineering (B.E.) – Computer Science and Engineering,Dindigul	CGPA:8.33
VISWA VIDHYALAYA MATRIC HIGHER SEC SCHOOL	HSC:77%
Higher Secondary Education	SSLC:86%

TECHNICAL SKILLS

PROGRAMMING LANGUAGES	QUERY LANGUAGES	GENERATIVE AI
• Python • CSS • ReactJS• HTML • JavaScript	• SQL	• Machine Learning • Deep Learning • NLP, LLM • RAG – FineTuning

PROJECTS

Real Time Smart Blood Donation Coordination System	2025-2026
• Developed a centralized platform to connect hospitals and eligible blood donors in real time. • Matches donors based on blood group, location, and eligibility. • Enables hospitals to send blood requests and provides instant notifications to suitable donors. • Reduces manual coordination and delays in blood availability, supporting faster emergency response.	

Social Media Analytics Using Python

2026

- Analyzed social media data to identify engagement patterns and user interaction trends.
- Used Python for data processing, analysis, and extracting meaningful insights.
- Performed data analysis to understand social media performance and audience behavior.

Customer Churn Prediction

2026

- Developed a machine learning project using Python to predict customer churn.
- Performed data preprocessing and exploratory data analysis using Pandas and NumPy.
- Analyzed customer patterns to identify factors affecting customer retention.

INTERNSHIP

Full Stack Web Development Intern

2025

Main Flow Services and Technologies Pvt. Ltd.

05/07/2025 – 05/08/2025

- Gained hands-on exposure to the end-to-end web application development process.
- Worked on practical development tasks with a focus on building and improving web-based solutions.
- Enhanced understanding of application structure, development workflow, and technical implementation.
- Contributed effectively during team activities while strengthening communication and coordination skills.
- Improved analytical thinking, attention to detail, adaptability, and professional work practices through project-based learning.
